

UTAH LIST OF REPORTABLE CONDITIONS FOR ANIMALS

Reporting of Diseases. It shall be the responsibility of veterinary diagnostic laboratories, veterinary practitioners, livestock inspectors, and livestock owners to report immediately by phone or written statement to the Department of Agriculture and Food any of the diseases listed on the Utah Department of Agriculture and Food Reportable Disease list, available at the Utah Department of Agriculture and Food, Division of Animal Health, PO Box 146500, 350 North Redwood Road, Salt Lake City, UT 84114-6500. (Utah Administrative Code, R58-2-2 Reportable and Quarantinable Animal Diseases)

Any person who identifies symptoms of vesicular disease in livestock shall immediately report it to the department. Failure of a veterinarian licensed in this state to report a diagnosed case of vesicular disease to the department constitutes ground for the revocation of such veterinarian's license. Failure by the owner of livestock to report symptoms of vesicular disease among such owner's livestock constitutes forfeiture of the right to claim an indemnity for an animal slaughtered on account of the disease. (Utah Code, Title 04, Chapter 31, Livestock Inspection and Quarantine, Section 4-31-5., Report of vesicular disease)

All diseases should be reported immediately to the State's Veterinarian office.

ANY SPECIES

- Anthrax (*Bacillus anthracis*)
- Bluetongue
- Brucellosis (*Brucella abortus*, *B. melitensis*, *B. suis*, *B. ovis*, *B. canis*)
- Crimean Congo Hemorrhagic Fever
- Echinococcosis (Hydatidosis)
- Foot and Mouth Disease
- Glanders
- Heartwater (Cowdria ruminantium)
- Heartworm (Dirofilaria immitis)
- Japanese Encephalitis
- Leptospirosis
- Lyme Disease
- Paratuberculosis (Johne's Disease, Mycobacterium avium paratuberculosis)
- Plague (Yersinia pestis)
- Pseudorabies (Aujeszky's Disease)
- Q Fever (Coxiella burnetii)
- Rabies
- Rift Valley Fever
- Rinderpest
- Screwworm (New world screwworm (Cochliomyia hominivorax) and Old world screwworm (Chrysomya bezziana))
- Trichinellosis (Trichinella spiralis)
- Tuberculosis
- Toxic Substance Contamination - anything that could involve potential danger to humans or other animals.
- Tularemia (Francisella tularensis)
- Vesicular Stomatitis
- West Nile Fever (West Nile Virus)

Also see diseases listed under individual species

BOVINE

- Bovine anaplasmosis (Anaplasma marginale)
- Bovine babesiosis (Babesia species)
- Bovine genital campylobacteriosis (Campylobacter fetus venerealis or C fetus fetus)
- Bovine spongiform encephalopathy
- Bovine tuberculosis (Mycobacterium bovis)
- Bovine viral diarrhea (BVD)
- Contagious bovine pleuropneumonia (Mycoplasma mycoides mycoides)
- Enzootic bovine leukosis
- Hemorrhagic septicemia (Pasteurella multocida)
- Infectious bovine rhinotracheitis / infectious pustular vulvovaginitis
- Listeriosis - dairy only
- Lumpy skin disease
- Malignant catarrhal fever (MCF)
- Salmonellosis - dairy only
- Scabies (Sarcoptes scabiei)
- Theileriosis (Theileria parva and Theileria annulata)
- Trichomoniasis (Trichomonas foetus)

CAPRINE AND OVINE

- Caprine arthritis/encephalitis
- Contagious agalactia
- Contagious caprine pleuropneumonia
- Enzootic abortion of ewes (ovine chlamydiosis)
- Listeriosis - dairy only
- Maedi-visna
- Nairobi sheep disease
- Ovine epididymitis (Brucella ovis)
- Peste des petits ruminants
- Salmonellosis (Salmonella abortusovis)
- Salmonellosis - dairy only
- Scrapie
- Sheep pox and goat pox

CERVINE

- Chronic Wasting Disease

EQUINE

- African horse sickness
- Contagious equine metritis (CEM)
- Dourine (Trypanosoma equiperdum)
- Equine Encephalomyelitis (Eastern, Western, and Venezuelan)
- Equine Infectious Anemia (EIA)
- Equine Piroplasmiasis (Babesia caballi or B. equi)
- Equine Rhinopneumonitis Type 1 (Equine Herpes Virus Type 1) (EHV-1)
- Equine Viral Arteritis (EVA)
- Potomac Horse Fever (PHF) (Neorickettsia risticii)
- Surra (Trypanosoma evansi)

PORCINE

- African Swine Fever
- Hog Cholera (Classic Swine Fever)
- Nipah virus encephalitis
- Porcine cysticercosis (Taenia solium)
- Porcine reproductive and respiratory syndrome
- Swine vesicular disease
- Transmissible gastroenteritis (TGE)
- Teschen Disease (porcine enterovirus, serotype 1)
- Vesicular Exanthema

AVIAN

- Avian chlamydiosis (Chlamydia psittaci) (Ornithosis, Psittacosis)
- Avian infectious bronchitis
- Avian infectious laryngotracheitis (ILT)
- Avian influenza (European Fowl Pest, Fowl Plague)
- Avian mycoplasmosis (Mycoplasma gallisepticum) (MG)
- Avian mycoplasmosis (Mycoplasma synoviae)
- Avian Pox
- Duck Viral Enteritis (DVE) (Duck plague)
- Duck Virus Hepatitis (DVH)
- Equine Encephalomyelitis (Eastern and Western)

- Fowl cholera (Avian cholera) (Pasteurella multocida)
- Fowl typhoid (Salmonella gallinarum)
- Infectious bursal disease (Gumboro disease)
- Marek's disease (Visceral Leukosis)
- Newcastle Disease (Viscerotropic Velogenic Newcastle Disease, VVND)
- Pullorum disease (Salmonella pullorum)
- Pigeon Paramyxovirus (PM-1, Pigeon Newcastle Disease)
- Pacheco's Disease (PDV)
- Turkey rhinotracheitis

LAGOMORPHS

- Myxomatosis
- Rabbit haemorrhagic disease

AQUACULTURE

- Bacterial Kidney Disease (BKD) (Renibacterium salmoninarum)
- Bothriocephalosis (Diphyllbothrium latum)
- Centrocestus formosanus
- Ceratomyxosis (Ceratomyxa shasta)
- Enteric Redmouth Disease (ERM) (Yersinia ruckeri)
- Epizootic Haematopoietic Necrosis (EHN)
- Furunculosis (Aeromonas salmonicida)
- Infectious haematopoietic necrosis [IHN]
- Infectious Hypodermal and Hematopoietic Necrosis Virus (IHHNV)
- Infectious Pancreatic Necrosis (IPN)
- Oncorhynchus masou virus (OMV)
- Proliferative Kidney Disease (PKD)
- Spring Viremia of Carp (SVC)
- Taura Syndrome Virus (TSV)
- Viral hemorrhagic septicemia (VHS)
- Whirling disease (Myxobolus cerebralis)
- Whitespot Syndrome Virus (WSSV)
- Yellow-head virus (YHV)

All test results (both positive and negative) should be reported for:

AVIAN

- Avian Influenza
- Avian mycoplasmosis (Mycoplasma gallisepticum)
- Avian mycoplasmosis (Mycoplasma synoviae)
- Fowl typhoid (Salmonella gallinarum)
- Pullorum disease (Salmonella pullorum)

BOVINE

- Paratuberculosis (Johne's Disease, Mycobacterium avium paratuberculosis)
- Trichomonosis (Trichomonas foetus)

CERVINE

- Chronic Wasting Disease

EQUINE

- Equine Infectious Anemia (EIA)
- West Nile Fever (West Nile Virus)

PORCINE

- Pseudorabies (Aujeszky's Disease)
- Porcine reproductive and respiratory syndrome (PRRS)
